WHY VASUKI TECHNOCAST ?

ABOUT US

Vasuki Technocast Private Limited is founded by a group of professionals having more than 2 decades of professional experience in this field. We are the Manufacturers of Steel, Alloy Steel, Stainless Steel, Duplex steel and Nickel Base Alloys Castings through Lost Wax process (Investment). We have commenced our production from April 21 with the state of the art machineries in all the process areas and with necessary testing facilities built in house with the latest technology testing instruments available in the Market.

The production capacity of the foundry is at present 50MT per month and the single product weight range from few grams up to 75 kg , we are very well equipped to meet Global standard requirements like ASTM, DIN, EN,BS and JIS, ASME., etc. The product we cater to serve for submersible , Oil & Gas, Marine, Engineering, Earth Moving, Automobile Industries. Etc.

We are direct and in-direct regular OEM supplier.

INTEGRITY

Achieve Customer Delight, understanding their expectations and serving them better, with a learning attitude and team support.

EXCELLENCE

Continue to be India's leading quality Precision Investment Castings manufacturer, through continuous upgrade of technology and environment friendly process.

COURAGE

Increase Global presence, providing effective business solutions through Competitive Pricing, including Quality, Delivery & Service.
